Application: AWS Cloud, MS office, Expo, VS code, Android Studio, Vercel

Web: HTML, CSS, React.js, Front-End Development

Databases: MongoDB, MySQL,

Other: Digital Marketing, Team Collaboration & Project Management, Data Analysis, Leadership

EXPERIENCE

Data Analyst Intern

Jun 2026 – Jul 2026

Reserve Infotech Private Ltd

- Analyzed and cleaned datasets to identify trends and support data-driven decision-making.
- Built reports and visualizations to communicate insights to the team.
- Applied data analysis techniques to support ongoing business reporting needs.

AI / Machine Learning Intern

Aug 2023 – Nov 2023

1Stop.ai — E-Cell, IIT

- Collaborated with a cohort of interns under guidance to learn and implement machine learning algorithms, receiving positive feedback from senior mentors on the quality of the work delivered.
- Carried out data preprocessing, model training, and evaluation using Python and standard ML libraries, applying core AI concepts to real-world datasets.
- Worked closely with mentors to optimize model performance and translate findings into practical, data-driven outcomes.
